The *Dictionary of International Trade Law* is the first of its kind. This *Dictionary* defines and explains in detail hundreds of terms—common and uncommon ones—used in the field, from the “ACU” and “CMAA” to “TIFA” and “WCO.” Many entries include organizational charts (e.g., the structure of the new Department of Homeland Security) and tables (e.g., of precedent-setting cases on zeroing). Many entries also provide references for further research to save the user reader many hours of research. Reasonably priced, the *Dictionary* synthesizes a vast amount of material into three Annexes:

- ✓ Annex A contains 25 maps, of the world, regions, and countries, from the Arctic to Zambia, not only showing states and provinces (e.g., in Brazil and India), but also highlighting disputed territories (e.g., in Kashmir);
- ✓ Annex B sets out research tools, such as tables on milestones in Chinese history (from early dynasties through modern legal reforms), EU institutions, U.S. trade statutes, and useful Web sites on trade law;
- ✓ Annex C has a virtual gold mine of data on every single one of America’s FTAs, including votes by political party in Congress, on immediate versus deferred duty-free treatment for goods, market access for services, and government procurement thresholds.

In sum, the *Dictionary of International Trade Law* aims to help teachers, students, scholars, and practitioners through the complex jargon of global trade.

COMING THIS FALL— NEW SECOND EDITION!

Among the highlights of the second edition of the *Dictionary* are:

- ✓ Several dozen brand **New and Expansive** entries for even more thorough coverage!
- ✓ Updated and expanded material for hundreds of existing entries.
- ✓ Several hundred Suggestions for Further Research.
- ✓ Compilation, synthesis, and analysis of data on every one of America’s Free Trade Agreements (FTAs), and of every one of Japan’s FTAs, all thoroughly updated since the first edition.
- ✓ Updated historical information about milestones in the economic development of the European Union (EU) and China.
- ✓ Revised maps for every region of the world, and several major countries.
